

It Sinks!

With No Break-in... Period.

Once again, ETC has engineered an innovative, time-saving product for the janitorial industry. The time-saving, Torpedo™ wet mop, requires no break-in period before using it to mop. While other mops will actually float on liquids when you take them out of the plastic packaging, ETC's Torpedo™ wet mop will absorb the liquids immediately. No other wet mop can save you the aggravation of trying to pick up liquids on a wet floor like ETC's Torpedo™. You have to try it to believe it.

Choose from: Orange, Blue, Green, Red or White
 Standard Torpedo™Cut ends with a 1 1/4" duck headband
 Super Deluxe Torpedo™Fantail loop with a 5" mesh headband.
 Tailband and headband colors match the color of the mop.

- No Break-in Period
- Quickly Absorbs Liquids
- It's Launderable
- Minimal Shrinkage When Laundered
- Less Expensive Than Pre-laundered
- 5 Colors Allow for Specific Usage

Item #TOR-L

Lint Free & Less Effort for Better Shine

from **etc.**[®]

ETC of Henderson, Inc.

The Standard for Finish Mops

**LINT FREE
HIGH-TECH
FILAMENT YARN**

REDUCED WORKER FATIGUE It glides rather than drags! There is over 25% less drag. You think the mop is floating. After laying finish with this mop, you will never go back to using a regular finish mop.

**MORE SQUARE
FEET PER
LOADING**

**LESS USER
FATIGUE**

THE COATS ARE MORE EVEN Immediately, you notice that the coats of finish are more even. The yarn's ability to hold the finish with surface tension allows Great White[®] to release the finish more evenly and more completely as it is pulled across the floor.

**RELEASES
FINISH EVENLY**

**WORLD'S NEW
STANDARD FOR
FINISH MOPS**

WASTE LESS FINISH Because the finish is laid more evenly and the fact that the yarn does not absorb the finish, (but simply holds it until it can be applied to the floor), you can save up to 15% of your finish costs.

**VERY LONG
LIFE**

LINT FREE Due to the structure of the high tech filament yarn used in making this mop, it is not capable of linting. With this absence of lint in your finish, you will notice it is smoother, and will stand up to traffic longer, since there are fewer contaminants and less surface blemishes.

RINSES CLEAN
